

COVID-19 has impacted infection control standards in a range of job roles across the economy. Return to work with the skills and knowledge to implement strategies and practices that will help you safeguard yourself, your colleagues and your customers from COVID-19.

HLTSS00066 Infection Control Skill Set (Food Handling)

ESSENTIAL COVID-19-RELATED TRAINING FOR FOOD HANDLING WORKERS IN THE ACT

Course Fee

Fee-FREE for eligible students.

or **\$120 (exclusive of GST) per person for participants who are not eligible for a subsidised training place.**

Delivery Methods

ONLINE (Online and on-the-job)

BLENDED (Face-to-face and on-the-job)

Course overview

This course is designed to ensure optimum protection in industries that involves the handling of food. It will help you design and implement systems that minimise exposure to pathogens and shut the door on any infection getting passed on via the end product. You will be able to create a hygienic and sanitary atmosphere at your workplace.

Course description

A set of skills to follow organisational infection prevention and control policies and procedures, including implementing standard and transmission-based precautions and responding to infection risks in organisations that include **food handling** in their operations.

Skilled Capital Eligibility

As a minimum a student must, for the duration of the enrolment, be:

- an Australian citizen, permanent resident, or New Zealand passport holder
- resident for more than six (6) months, **or**
- a person who holds a visa that is identified as being eligible, **and**
- living or working in the ACT, **and**
- at least 15 years of age, **and**
- employed in a customer-facing role at the time of enrolment.

About the National Infection Control Training Fund

The National Infection Control Training Fund is a joint initiative by the Commonwealth and states/territories to support the accelerated uptake of the new nationally accredited Infection Control Skill Sets. Training places are available for customer-facing employees in any industry, with funding prioritised for workers in retail, tourism, transport and logistics, hospitality, cleaning and security services industries and to increase infection control skill levels in sectors such as aged and disability care.

The training is intended to support ACT businesses to re-open safely following the COVID-19 health and economic crisis, reducing the risk of transmission of COVID-19 and supporting consumer confidence that it is safe to re-engage with businesses.

This initiative is funded by the ACT and Australian Governments through the Project Agreement for the National Infection Control Training Fund, which commenced in May 2020 and will expire on 30 June 2021.

Skilled Capital Information

This course is offered under Skilled Capital. *Additional eligibility criteria may apply to undertake the Skilled Capital Infection Control fee-free training. Note: students undertaking the Skilled Capital Infection Control and Food Handling skill sets are not eligible for a completion payment.

Additional Information

This short course is offered fully online, distance delivery, fully on-the-job (by RTO), or via blended delivery. You will require a computer and adequate internet access. To complete the assessment, you will require a mobile device or tablet with video function.

CTI provides technical support or help with digital literacy skills. You will be given information on how to access and use the online learning platform (e-Learn).

If you are entering this program under Skilled Capital, you must commence within 5 days (from the time of enrolment).

All training and assessment for Infection Control Training Products must be completed within 5 weeks of the student record creation date.
